

AI-powered tools, products and ICT supply for South Africa

Ubuhlakani Labs (Pty) Ltd, trading as AutonomyLabs, is a private company registered in South Africa and based in Phoenix, Durban, KwaZulu-Natal. We use AI agents and automation to build digital tools and prepare ICT quotes quickly and accurately; our online store is launching soon. A person reviews and approves everything that goes out.

Our three divisions

DIVISION 1

Digital products

Downloadable spreadsheet tools for SA small businesses, in Rand with SA wording.

- SA Small Business Invoice & Cashbook Kit (R149)
- Stokvel Contribution & Payout Tracker (coming soon)
- Home Bakery & Cake Pricing Calculator (coming soon)
- Free SA invoice template

AI-assisted design and testing; every file checked by a person.

DIVISION 2

Online retail store

Physical products sourced from South African suppliers, sold on Amazon.co.za and Bob Shop (stores being set up).

- Pet accessories
- Car & phone accessories
- Personalised & engraved gifts
- Fitness & yoga gear
- Home goods
- Human-hair wigs & weaves

Launching soon; being set up with automated order and supplier coordination.

DIVISION 3

ICT supply

IT hardware, networking, software licences, peripherals and consumables for public-sector and corporate buyers, via RFQs and tenders.

Registered on National Treasury's Central Supplier Database (CSD).

AI-assisted tender monitoring and quote preparation; every quote signed off by a person.

ICT supply: what we offer buyers

- **IT hardware:** desktops, laptops, monitors, servers and related equipment.
- **Networking:** switches, routers, wireless access points, cabling and accessories.
- **Software licences:** operating system, productivity, security and other business software licences.
- **Peripherals:** printers, scanners, keyboards, mice, headsets, webcams, docking stations and storage.
- **Consumables:** toner, ink cartridges, drums, storage media and other ICT consumables.

We quote to your specification (brand, model, OEM warranty, original consumables, licence type) and complete your RFQ's returnable documents.

Quotes and RFQs: email naidoorn@autonomylab.co.za with your reference number in the subject line, item specifications, quantities, delivery address, required delivery date and the RFQ closing date and time. We do not accept orders or quotes by phone.

Policies

Terms of sale, refund policy, shipping & returns and our POPIA privacy notice are published at www.autonomylab.co.za. Information Officer (POPIA): Dushendrin Naidoo.

How we work

- **Email-first:** written quotations, written answers and a written record of everything agreed.
- **Public-sector, corporate and small-business buyers:** we respond to RFQs by email, complete the required returnable documents and supply on receipt of an official purchase order.
- **Online customers:** digital products are delivered instantly by download through Payhip. Store orders are placed and paid on Amazon.co.za or Bob Shop and shipped from South Africa.

How we use AI

1 Tender monitoring & quote preparation

AI agents watch for tenders and RFQs, read specifications, check each line item and returnable document, and draft pricing schedules.

2 Order & supplier coordination

Our store, launching soon, is being set up with automation to track orders, supplier stock and lead times.

3 Product design & testing

AI tools help research, draft and test our templates; a person checks and releases them.

4 Human approval on everything

No quote, order, product or reply goes out without a person approving it.

We use established third-party AI tools; we do not build our own AI models.

For suppliers and brands

We welcome South African manufacturers, brands and wholesalers who want their products sold on Amazon.co.za and Bob Shop, as well as ICT distributors. Email your company details, product range, price list, minimum order quantities and lead times to naidoorn@autonomylab.co.za with the subject "Supplier partnership".
